#### Totem and Tribe series

*Totem*: a spirit, sacred object, symbol or emblem of a group of people, such as a family, clan, lineage or tribe, that has special significance in tribal life. This new body of work consists of handbuilt terracotta slabs shaped into tall cylindrical forms with coloured bands and housed in cubes. Totem like forms with colours inspired by autumn woodland walks and summer flowers on the kitchen table, these pieces are about family, identity and home. Earthy but bold, I hope they have a timeless quality, both ancient and modern. They are about a sense of connection to who we are through our people past and present, which feels poignant and profound.

*Tribe*: Nestled within Totem is a little series of small ancestry pots in orange, green and gold.
